Glaucoma is an eye disease that can steal your sight. Especially if you're over 60, or Black and over 40. But glaucoma can usually be controlled if detected and treated early. So, get a dilated eye examination in which drops are used to enlarge your pupils.

For more information, write: National Eye Health Education Program, Box 20/20, Bethesda, MD 20892.

Don't lose sight of glaucoma.
